

**Letters to Editor**

May we take this opportunity to express our thanks and appreciation for the splendid cooperation of the various newspapers in our community during the past year, and may we wish you and your staff, the veteran and his dependents and the citizens of our locality a very Merry Christmas and a Happy New Year.

**SPECIALIZED CARE**  
The most highly qualified surgeons available in 45 special fields are assigned to units in Army General Hospitals which are concerned with reconstruction surgery.

Year.  
Sincerely yours,  
**LOCAL VETERAN INFORMATION CENTER:**  
JAMES G. CALDWELL, Chmn., and EUGENE BECKMAN.

**'Shot From the Sky' Exhibit to Be Displayed in Long Beach Jan. 5 to 7**

Largest display of captured enemy aerial equipment ever presented, the Army Air Forces' "Shot From the Sky" exhibit will open a three-day appearance in Bixby Park, Long Beach, Jan. 5, AAF officials here announced today.

The 10-acre exhibit, which is entirely free to the public, is sponsored in Long Beach by the Chamber of Commerce in cooperation with the national war agencies and the Naval Drydocks to recruit manpower for war jobs and to encourage war workers to stay on their jobs.

Theme of the exhibit is "Get a War Job and Stay on Your Job to Finish the Job." All major war industries and military installations in the Long Beach area will present exhibits in connection with the displays of captured aircraft, and recruiting booths will be maintained by the United States employment service, the War Manpower Commission and the Civil Service Commission.

Exhibit hours will be from 2 until 10 p.m., Jan. 5, 6, and 7. Stage performances, featuring Hollywood stars and local civilian and military orchestras, will

be presented from the largest portable stage in the country each evening at 7:30 o'clock and each afternoon at 3:30 o'clock. No admission is charged for the stage performances.

"Shot From the Sky" includes almost 10,000 pieces of captured axis warplanes and features three planes still in flying condition—a Junkers 88 medium bomber captured in the Mediterranean theater, a Jap Zero captured at Buna and a Messerschmitt 109 fighter taken at an African airfield.

Shown for the first time in the United States is a Nazi robot bomb captured on Normandy's rocket coast. One of Hitler's V-1 vengeance weapons used against London and the south of England last summer, the buzz bomb is accompanied by explanatory charts and diagrams.

Other display pieces include a Jap "Oscar" pursuit ship and fuselage of a JU-88, ME-110, Focke-Wulf 190, Jap Mitsubishi "Betty" bomber, ME-110, and wings, engines, propellers, tail sections and landing gears of al-

most every type of German and Japanese fighters and bombers.

Range of "Shot From the Sky" extends from these mighty warplanes down to small axis aircraft parts—altimeters, bombsights, junction boxes and inclinometers. German and Japanese flying uniforms, life rafts, parachutes, guns and ammunition, helmets and gas masks are also displayed.

In addition to the captured equipment, the mammoth display features a Link Trainer (miniature airplane used to teach to teach pilots blind flying), barrage balloons of the type used at Salerno, Anzio and Normandy, a collection of 32 battle paintings—done under combat conditions by 12th Air Force camouflage expert Maj. John Lavalle and a special display of jobs performed by members of the Women's Army Corps in the AAF.

A detachment of 53 Wacs and 60 enlisted men, representing every combat air force except the 20th, accompany the exhibit. Wacs help set up the displays, assemble the axis airplanes and

**ALL SKIDDING ASIDE**

Apply brakes on slippery pavement lightly and with a pumping action. If you jam on brakes, they may lock and throw your car into a dangerous skid.

NATIONAL SAFETY COUNCIL

act as guides, lecturers and users when the exhibit is in progress.

**TIN SCRAP**  
As much as 1,577,565 pounds of tin scrap have been collected in one month from the tin can salvage at Army Service Forces installations in the eight western states of the Ninth Service Command.

**CONSERVATION EXHIBIT**  
Signal Corps conservation exhibit, to be shown this month in the Pentagon, Washington, D. C., illustrates graphically numerous methods by which approximately \$1,000,000,000 decrease in contract costs was accomplished in producing 1,551,000 tons of equipment, the Ninth Service Command ordnance office, at Fort Douglas, Utah, has been informed.

**'DOG TRACKING'**

"Dog tracking"—mechanics' lingo for driving with wheels out of alignment—is one of the principal causes of tire wear.

We wish to pause to THANK YOU! Yes, thank you for many things. Thank you for your kindness and consideration of our efforts to serve you, thank you for waiting at the check stand when the line-up prevented you from "getting-out" as soon as you would like, thank you for coming back to buy something we were out of yesterday and many other things . . . things we seem never to have time to say to you personally! So, "Thanks, Folks" . . . and we wish you the very best for the New Year!

DON'T WORRY ABOUT THE NEW POINTS OF OPA

The new points placed on food by OPA is not going to let anyone starve! The point system sees to it that everyone gets a fair share of America's foods . . . with enough for everyone, but not one extra can for a hoarder! So we ask your help! Yes, help us to help OPA and you too! Buy all you need as you need it, but don't stock up on anything. Thanks!
